WORLD HAPPENINGS BRIEFLY TOLD

The department of national defence has ordered 18 new light aircraft for use in connection with training in the Royal Canadian Air Force, at a cost of \$50,000.

The New Zealand Government has invoked force of arms to enforce its authority over British Samoa, and the long residence of Samoan natives to its government.

Immigration in Canada in the first eight months of the current fiscal year—from April 1 to November 30, 1929, included 135,446, a decrease of 2,158 when compared with the corresponding period of 1928.

Canada is greatly interested in the case of greater markets for British Columbia lumber here and for the Antipodes. Four of the Antipodes are New Zealand, New Zealand, New Zealand, and New Zealand, studying the requirements of these countries.

A new military force will be guarding the Canadian and Mexican borders along the coast of the Gulf of Mexico.

Ontario is not even close to having been by the glass because public opinion is not so much as it was in the past.

Newest Terror Of Air

Flightless Tank As Warfare Weapon
Tested by French Authorities

A new sort of the air, more grim and terrifying than any weapon yet devised, has been successfully experimented with by the French air authorities.

They are testing pilotless aircraft which can spread death and destruction over large areas without the sacrifice of a single life on the part of the attacking party.

Enough details of the experiments prove that whole towns and cities can be wrecked, entire populations wiped out, and the life of a nation paralysed in a few hours.

One of the successful machines is a giant bomber, which was sent up without a single living man aboard. It was guided through the air by radio transmission by means of dummy bombs which discharged over the objective, the target being destroyed, and then the machine crashed and fell back to its base making a perfect landing.

The secret of the new air force is a gigantic device which controls the direction and altitude. Experts are convinced that the design will be successfully applied to machines of colossal size—larger even than the German Dornier "Doz," which carries over a hundred passengers.

Mounties Going to London

Twenty of Finest Will Attend Here

Age Of Miracles Not Passed

Ben. Winston Churchill Believes It

I am at the top of the tallest building in San Francisco. I have been in the telephone company. The chairman of the telephone company has invited me to have ten minutes talk with my wife in England. I take up the instrument.

My wife speaks to me across one ocean and one continent. One of each. We hear each other as easily as if we were in the same room, and not to exaggerate, say about half as well again as on an ordinary London telephone.
